

Technical specifications

Quality:

Composition:

Available colors:

Available thicknesses:

Density:

Roll width :

6413

80% wool

15% viscose

5% other fibres

black

1-2-3-4-5-6-8-10-12-15 mm

0,44 gr/cm³

1800 mm

Long term temperature resistance:

70°C

Short term temperature resistance:

90°C

Tensile strength:

+

Acid resistance:

+/-

Alcalis resistance:

-

Oxidation resistance:

+/-

Recover ability after compression

++

Warmth insulation ability

++

Water absorption and desorption ability

++

Air and steam permeability

+

Electrostatic charge

-

Excellent:	++
Good - high:	+
Mediocore:	+/-
Bad - low:	-
Very bad:	--

This material is being used for;

- Muting material in machines
- Protection under furniture
- Tamping material

Deviation in color or mélange are possible due to raw materials.

This information has been given with our best knowledge. A liability however, cannot be deduced.
